

Good+Foundation

Host Your Own Product Drive

Good+Foundation is a leading national non-profit that works to dismantle multi-generational poverty by pairing tangible goods with innovative services for low-income fathers, mothers, and caregivers, creating an upward trajectory for the whole family.

Hosting a product drive is a wonderful way to help Good+Foundation provide families with the goods that help them reach their goals. Thank you!

Drive theme examples:

- Baby bath time
- Diapering
- Nursing and infant feeding
- Back-to-school
- Newborn essentials
- Toys and books

Good+ is happy to share information on our current most urgent needs.

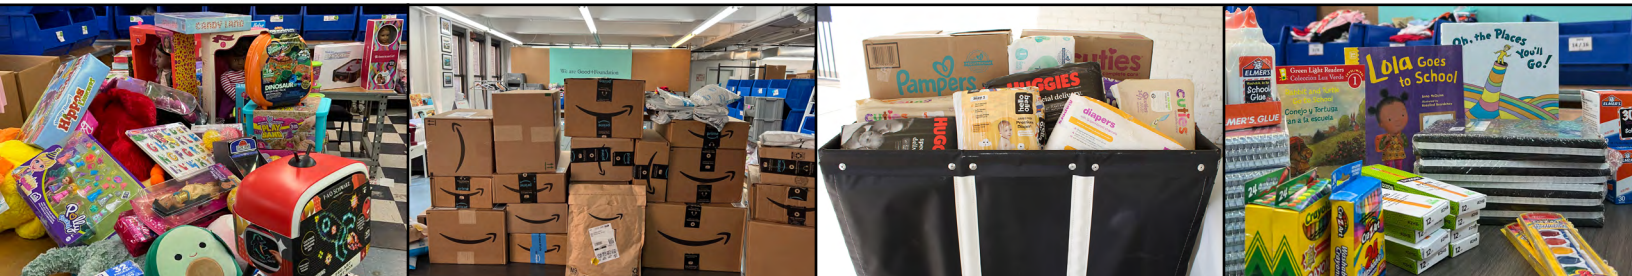

How it works:

Virtual Drives

1. Decide the theme and timeline of your drive.
2. Share your personalized Amazon Registry link, provided by Good+, with your group and promote via social media, email, etc.
3. Purchase items listed on the registry. Goods are sent directly to our warehouse for distribution.
4. We will share the impact of your drive and all who donated via Amazon will receive a tax acknowledgment letter.

In-person Drives

1. Decide the theme and timeline of your drive.
2. Ask participants to bring goods to your office, home, or other location. Good+ only accepts new, unused items in their original packaging.
3. Ship or drop-off donated goods at either our New York City or Los Angeles location.
4. We will share the impact of your drive.

To host your own Good+ product drive,
